

# SUMMER BINGO GAME

Turn your summer into a game with Mathnasium Summer Bingo. Who knew strengthening your maths skills could be this much fun!

Measure the length of 3 items in your room	Bake something and measure all ingredients	Skip count by 2s, 5s and 10s	Add up the prices of 5 things in your pantry	Create a symmetrical drawing
Find shapes in nature (triangles, circles, etc.)	Solve a word problem from a book	Tell the time 3 times today using an analogue clock	Play a maths board or card game	Estimate how many steps from your bedroom to the kitchen
Build something using blocks or LEGO and describe the shape	Count backwards from 100	Do a real-life money calculation (like pocket money or change)	Write a number story using your favourite number	Find out how much rain has fallen this week in mm
Create a pattern using colours or objects	Double 10 different numbers	Help cook and use fractions ( $\frac{1}{2}$ , $\frac{1}{4}$ , etc)	Measure your height in centimetres	Draw and label a bar graph about your week
Spot 10 even and 10 odd numbers around you	Practice times tables for 5 minutes	Find 5 things taller than 1 metre	Create your own maths joke	Compare prices between 2 shops (online or in person)

## Hey Kids!

Play Mathnasium's Summer Bingo game! Follow the prompts in the various spaces, and have your parent or guardian mark them off when completed. Once you have a full row done (across, down, or diagonally), show us your completed Bingo!
