

Pi Day 2026

Activity #1: Digits of Pi

Goal: To memorize as many digits as possible.

Step 1: Observe the 100+ digits of pi below. Use this as a reference.

Step 2: Identify the digits of pi up to a certain decimal place. Create a piece of art that represents a string of digits, using paper plates.

Step 3: For each digit of pi, decorate a plate with that digit.

Step 4: Hole-punch the plates and string them together in order.

Step 5: Place the chain in a window or around the walls of your home.

Step 6: Memorize as many digits of pi as possible, and compete with a family member or friend to repeat the digits within a specified time frame.
