

• Ace Your Dreams Worksheet (Lower Elementary) •

Problem:

The South Korean handball team scored 28 points against the Swedish handball team. The Swedish team won by 3 points. How many points did the Swedish team score in total?

How did you get your answer? Use words.

Larry says that the first year South Korea played Sweden in handball was 1992, so it's been 32 years since the first game. Is he right or wrong?

There are 7 players on a handball team. Which of the below sets of points earned by each teammate add up to 31 points?

- a) 7, 6, 9, 4, 5, 1, 0
- b) 9, 5, 8, 5, 4, 0, 0
- c) 3, 5, 0, 2, 4, 6, 7

The Swedish team scored the same number of points against the Argentinian team as they did against the South Korean team, but this time they won by 10 points. How many points did the Argentinian team score?
